Africa needs pilots. Zino Aviation has spent years *guiding them in.*

A Lagos-based aviation services business with two divisions: **Academy**, a pilot-career consultancy with years of public evidence of operation, and **Jet**, a private-aviation advisory and brokerage brand launched in October 2026 whose services are mostly marketed or coming soon.

Investor deck · October 2026

Founder & CEO
Capt. Zino Mario ● Verified public · UK register

Co-founder & COO
Temisan Mario — as named by ThisDay (2022)
● Verified public · press

Operating base: Lagos, Nigeria ○ Self-reported

One registered UK company. The Nigerian entity is *still to be shown.*

Verified on the UK register ● Verified public

ZINO AVIATION LTD, England & Wales, company 13100002, active, private limited

Incorporated **24 December 2020**; registered office Edgware, Middlesex; SIC 70229 management consultancy

Directors Efezino Mario-Ghae and Temisan Mario-Ghae, both appointed 2020-12-24

Accounts **overdue**: FY to 2025-12-31 was due 2026-09-30

Claimed or not yet found

Founded in **2018**, per the Academy site ○ Self-reported

Nigerian CAC registration and RC number ⛶ Unknown

"Zino Group" used in job adverts; no registered group entity found ○ Self-reported

Jet and Academy are trading divisions of one brand, not separate companies ◇ Assumption

Which legal entity contracts with Nigerian customers — and holds any Nigerian permits — is the first document to obtain.

Demand for pilots is real. *The route there is expensive, foreign-priced and hard to navigate.*

23,000

New pilots Africa needs over 2025–2044, of about 660,000 globally (Boeing Pilot & Technician Outlook 2025).

● Verified public · Boeing

$45k–€72.5k

Range of partner-school ab-initio programme prices Zino publishes — in USD, EUR and ZAR, while most customers earn naira.

○ Self-reported · published prices

$15–25k

Typical type-rating cost, with no pilot-loan system — and, the CEO says, many licensed Nigerian pilots still unemployed.

○ Self-reported · CEO, Nairametrics 2026

As of October 2026, customers — aspiring pilots and their families in Nigeria — face an expensive, slow and fragmented route to a licence, usually by travelling abroad for flight school.

A later Boeing Africa forecast (2026–2045) cites 22,000; the two windows are not mixed here.

One guide from first webinar to first job — *with partners flying the training.*

01 Webinar & call
Free webinar; paid 1-on-1 calls with Capt. Zino

02 Masterclass
Online Pilot Masterclass and Employment Bootcamp

03 Mentorship
Pilot Mentorship Programme

04 Ground & sim
Ground school and simulator sessions in Lagos

05 Flight school
SACAA and EASA programmes at partner schools

06 Type rating
Via partner ATOs; prep CBT course

07 Employment
Assessment and referral to airlines and operators

○ Self-reported Funnel as described across academy.zinoaviation.com (fetched 2026-10-18). Flight training, type ratings and medicals are **partner-delivered**; Zino is not evidenced as an approved training organisation.

○ Self-reported Also marketed: logistics management for governments, parastatals and airlines running cadet programmes — no client is named.

○ Self-reported As of October 2026, the Lagos 737NG simulator is deployed and ready to serve students: the market window is open. Through active partnerships with SafeFly Express (South Africa) and TAE Aviation Academy (Greece), the Academy is serving students across multiple countries.

Academy: the operating core.

Service	Status	Evidence
Pilot mentorship; 1-on-1 calls	**Active**	Dedicated page with named testimonials; calls bookable at ₦95,000 / 30 min and ₦150,000 / 1 hr ○ Self-reported
Masterclass, bootcamp, webinar	**Active**	Pages live; ThisDay reported an in-person Lagos masterclass in 2022 ● Verified public · press
Simulator experience, Lagos	**Active**	Bookable; Mon–Fri 9–6, Sat 8–12; about 1h30 sessions; gift certificates ○ Self-reported
Boeing 737NG simulator	**Unknown**	Ownership claimed by the founder; **no NCAA or EASA FSTD qualification found** — not a qualified training device ○ Self-reported
Ground school	**Active**	Job advert for a Ground & Simulator Instructor in VI, Lagos ○ Self-reported
Flight training; type ratings; medicals	**Partner-delivered**	Partner schools SafeFly Express and TAE Aviation Academy; unnamed ATOs and AMEs ○ Self-reported
Recruitment; logistics; aptitude	**Marketed**	"Established agreements with airlines" claimed; none named ○ Self-reported
Pilot funding / loans	**Planned**	CEO: "working on" with banks, airlines and governments ○ Self-reported

Jet: "Private Aviation, Simplified." *Launched, not yet evidenced.*

Service	Status	Evidence
Private jet charter	**Marketed**	Quote form live. No aircraft, operator, AOC holder or completed flight named — would have to be flown by an AOC holder ○ Self-reported
Aircraft acquisition · JetVault	**Marketed**	Experience Centre and digital platform described; no address, no evidence the platform is live ○ Self-reported
The Journey Concierge™	**Marketed**	10+ concierge solutions, delivered by third parties; trademark status unknown ○ Self-reported
Advisory for HNW clients	**Marketed**	Homepage copy and contact form; Advisory page "coming soon" ○ Self-reported
Sales, management, financing, interiors	**Planned**	Links lead to coming-soon.html ○ Self-reported
ZinoJet Network; Knowledge Centre	**Planned**	Homepage only; no network members named ○ Self-reported
Privacy policy and terms	**Planned**	Coming soon — while the site collects personal data ● Verified public · observed

Site stylesheets versioned 20261006 (early October 2026) ● Verified public · observed. No AOC held by any Zino entity was found ⬚ Unknown; no aircraft owned is described ⬚ Unknown. This deck does not state or imply either.

Two markets, both with public numbers — *and the jet numbers disagree.*

23,000

New pilots Africa needs, 2025–2044 (Boeing). ~660,000 globally.

22,000

Boeing's later Africa forecast for 2026–2045 (via AFM). A different window.

~240

Private jets operating in Nigeria — Minister Festus Keyamo, as reported. Another source: "over 157 by 2024".

36

Private jet operators in Nigeria, per a BusinessDay report (undated in results).

● Verified public investors.boeing.com (2025 Pilot & Technician Outlook) · afm.aero/boeing-forecasts-africa-will-need-22000-new-pilots-as-fleet-more-than-doubles-by-2045 · ground.news (Keyamo) · allafrica.com/stories/202603200305.html · businessday.ng (private charter uptake) · fetched 2026-10-18. Registered and operating fleet definitions differ; no figure is preferred.

Growing demand for pilots: Africa needs 23,000 new pilots over 2025–2044 (Boeing Pilot & Technician Outlook 2025) ● Verified public

Expansion plan, as of October 2026: expand from pilot training into the private aviation market through Zino Aviation Jet, whose charter quote form is open ○ Self-reported

Strategic opportunity, as of October 2026: JetVault, an experience centre and digital platform for private aviation, is at plan stage ○ Self-reported

Academy SOM ≈ US$0.30M/yr · Jet SOM unknown

Every percentage, price and count below is an Assumption. TAM and SAM are underlying spend, not Zino revenue.

Academy TAM ◇ Assumption	23,000 pilots ÷ 20 years ≈ 1,150 new pilots/yr × US$55,000 average ab-initio cost (midpoint of Zino's published partner prices)	≈ $63M/yr
Academy SAM ◇ Assumption	Serviceable market, an estimate from stated assumptions (as of October 2026): Nigeria = 20% → about 230 cadets/yr ≈ US$12.7M tuition; plus US$3,000 ancillary spend per cadet ≈ US$0.7M	≈ $13.4M/yr combined
Academy SOM ◇ Assumption	15% of Nigerian cadets → about 35/yr × (10% of tuition ≈ US$5,500 + US$3,000 direct services), within 3 years	≈ $0.30M/yr
Jet SAM ◇ Assumption	160–240 aircraft × 5% turnover = 8–12 deals × 1.5% of US$10M; management: 30% externally managed × US$200k/yr	$1.2–1.8M + $9.6–14.4M
Jet SOM ⬚ Unknown	Unknown until first transactions exist	—

Zino earns fees and commissions — *not* the full tuition it lists.

Published price ○ Self-reported	**Amount**
1-on-1 call with Capt. Zino, 30 min / 1 hr	~~₦95,000~~ / ~~₦150,000~~
SACAA 0-CPL, SafeFly Express	$45,000 *and* ZAR 875,000 ($54,000)
SACAA CPL+CFI · SACAA PPL	ZAR 948,000 ($58,500) · $19,000
EASA 0-ATPL(f), TAE Aviation Academy	€65,000 *and* €62,000
EASA 0-ATPL+FI · EASA PPL	€72,500 · €15,000

Two programmes show two different prices on the same page — a misrepresentation risk to fix.

Revenue streams

Academy: calls, courses and events, mentorship, simulator packages, recruitment and logistics fees ○ Self-reported

Partner programmes: Zino's commission or margin ⬚ Unknown

Jet: advisory, brokerage, management, charter revenue-share, concierge, interiors and financing fees — inferred from marketed services; none evidenced as earned ⬚ Unknown

Aspiring pilots first; institutions and HNW clients next.

Academy · individuals	Academy · institutions	Jet · targets
Aspiring pilots, largely Nigerian	Governments and parastatals	HNW individuals and corporates
Qualified pilots seeking jobs	Airlines and private operators	Government, diplomatic and medical missions
Families and corporates for simulator sessions	Assessment, logistics, recruitment	Aircraft owners

Distribution ○ Self-reported — direct sales of simulator sessions and paid advisory calls (₦95,000 / 30 min, ₦150,000 / 1 hr, as of October 2026); blog, social, TEDx and webinars feed paid calls, masterclasses and mentorship; payment by PayPal, Paystack, DPO or offline. Jet: private consultations, charter quote form, JetVault consultations.

Reach — "more than 8,000 aspiring pilots in our network" ○ Self-reported · CEO. The homepage "1000+" counters are template placeholders, not data.

Competitors hold approvals Zino has not shown. *Zino competes on guidance.*

Competitor	Position	Evidence
Caverton Aviation Training Center, Lagos	NCAA-approved ATO015 with an EASA-qualified AW139 Level D FSTD	● Verified public · AFM report
Lagos Aviation Academy	NCAA-approved ATO	● Verified public · Blueprint
NCAT Zaria; International Aviation College, Ilorin	Nigerian flight colleges	Named in research
Global flight schools and agents; social-media mentors	Recruit Nigerian students directly	Category
Charter brokers and operators; PrivateFly, LunaJets	Private aviation in Nigeria and internationally	Category

Zino's claimed difference ○ Self-reported — end-to-end mentorship, cost reduction, an employment network and a Lagos 737NG simulator.

○ Self-reported As of October 2026: unlike flight-school-only alternatives, Zino Aviation combines a Lagos 737NG simulator, partner schools abroad and paid one-to-one advisory support. Its partner schools are licensed by SACAA (SafeFly Express) and EASA (TAE Aviation Academy).

What a competitor cannot easily copy — *and what it can.*

Hard to copy ◇ Assumption

A trusted guide. A pilot-founder brand with press coverage (ThisDay 2022, Nairametrics 2026) and TEDx talks

A funnel already running. Webinar → call → masterclass → mentorship → partner school → job

A claimed 8,000-person network of aspiring pilots ○ Self-reported

A Lagos simulator — if its qualification is proven

Easy to copy or at risk ◇ Assumption

Partner-school brokerage, without exclusive contracts ⁇ Unknown · terms

Key-person dependence on Capt. Zino

Jet brokerage and concierge, without named operators

Approvals that competitors hold and Zino has not shown (ATO, FSTD)

Years of visible activity. *No audited numbers yet.*

Mentee testimonial from a “First Officer, Bristow Group, S76D” ○ Published testimonial

Mentee testimonial from a “First Officer, ATR … Green Africa Airways” ○ Published testimonial — employers of mentees, not partners

In-person Pilot Masterclass in Lagos reported by ThisDay, 2022 ● Verified public · press; “sold out” ○ Self-reported

Interview with the CEO in Nairametrics, July 2026 ● Verified public · press

“More than 8,000 aspiring pilots in our network” ○ Self-reported · CEO; 20–50 staff on Fuzu ○ Self-reported · employer

Not published

Revenue and margins [ ] Unknown

Student enrolments and completions [ ] Unknown

Verified placements [ ] Unknown

Any Jet transaction or flight [ ] Unknown

Do not infer revenue from tuition prices: Zino likely earns a fee or commission.

Planning assumptions — not actual results

Zino Aviation publishes no revenue, enrolment or transaction data. These scenarios only scale the research's illustrative inputs; they are not forecasts and not company figures.

Scenario◇ Assumption	Cadets/yr via Zino	Per cadet	Academy revenue
Early	15	$8,500	$0.13M
Research SOM	35	$8,500	$0.30M
Stretch	70	$8,500	$0.60M
Jet: per brokered deal	1 deal	1.5% × $10M	$0.15M

Per cadet = 10% of US$55,000 tuition (US$5,500) + US$3,000 direct services. Excludes simulator, institutional and recruitment fees.

Inputs still unknown

- Actual commission or take-rate per partner programme ⛶ Unknown
- Simulator cost, financing and utilisation ⛶ Unknown
- Gross margin by service; CAC by channel ⛶ Unknown
- Conversion: webinar → mentorship → enrolment → placement ⛶ Unknown

Partners named on the site are *claims until contracts are shown.*

Partner	Claimed role	Evidence
SafeFly Express, Lanseria, South Africa	SACAA flight school, accommodation, employment pathway	Named on site ○ Self-reported; alliance headline in Guardian Nigeria ● Verified public · press; terms ⸬ Unknown
TAE Aviation Academy, Megara, Greece	EASA ATO for the ATPL programme	Named on site only ○ Self-reported
Type-rating ATOs; aviation medical examiners	Type ratings; Class 1–3 medicals	Unnamed ⸬ Unknown
"Partner airlines and private jet companies"	Recruitment off-takers	Unnamed ⸬ Unknown
Banks, airlines, governments	Pilot funding, cadet programmes	"Working on" ○ Self-reported · CEO
AOC holder for charter	Would operate charter flights	**Not named anywhere** — required before charter is represented as operational ⸬ Unknown

From consultancy to *"the continent's leading aviation platform"* — the stated ambition.

Stated by the company ○ Self-reported	**Options the evidence suggests** ◇ Assumption
Pilot funding with banks, governments and airlines	Qualify the 737NG device; seek NCAA ATO approval for ground school or MCC
Airline cadet programmes	Wet-lease simulator time to airlines
Africa-wide expansion	Publish formal AOC-holder partnerships for charter
JetVault digital platform, ZinoJet Network, Knowledge Centre	Recruitment-as-a-service with a named airline; tuition financing

Scalability ◇ Assumption — the Academy is mostly asset-light (partners deliver training); the simulator is the capital exception. Jet stays asset-light as brokerage; operating or owning aircraft would raise capital, insurance and regulatory burden sharply.

A pilot-founder, and a co-founder on the register.

Capt. Zino Mario

Founder & CEO · UK director, registered as Efezino Mario-Ghae

● Verified public · Companies House

Licensed pilot at 18; flew aeroplanes and helicopters incl. offshore Sikorsky S-92; retired from active flying in 2021 ○ Self-reported

"Several thousand flight hours" (ThisDay 2022) ○ Self-reported · founder in press

EASA, FAA and ICAO licences claimed — numbers and validity not verified ○ Self-reported

"Nigeria's youngest commercial pilot" — unverified superlative ○ Self-reported

Founder experience: previously founded and led Delta Dash Aviation Ltd (2013) and Pilot Pairing Ltd (2017) in the UK ● Verified public · Companies House

Temisan Mario

Co-founder & Chief Operating Officer, as named by ThisDay (2022)

● Verified public · press

Director of ZINO AVIATION LTD since 2020-12-24, as Temisan Mario-Ghae ● Verified public · Companies House

Also named COO by Guardian Nigeria (search snippet) ○ Self-reported

Staff: 20–50 per Fuzu employer profile ○ Self-reported

Critical team functions, as of October 2026: hiring is open, with job adverts published under the Zino Group name ○ Self-reported

Capt. Zino also partners at FDN Capital Partners and founded KUUZA AI and SongScribe AI ○ Self-reported; he is a Capital Q cofounder ■ Owner-provided. None is part of Zino Aviation.

The licence and aircraft questions come first.

Risk	Why it matters	Mitigation◇ Assumption
Charter without an AOC	Nigerian charter must be operated by an NCAA AOC holder (Nig.CARs Part 9); no Zino AOC found	Present Jet as broker/agent; name the operating carrier on every quote
Training approvals	Not evidenced as an NCAA-approved ATO (Part 3); simulator FSTD level unknown; instructor licences unshown	Never call the simulator “certified” or creditable without the qualification certificate
Data protection — NDPA 2023, UK GDPR	Jet collects personal data with no live privacy policy or terms	Publish policy, terms and the legal entity name
Pricing inconsistencies; superlatives	$45k vs $54k, €62k vs €65k; “world’s first and leading” unverified	One price per programme; attribute or remove superlatives
Governance	UK accounts overdue; Nigerian entity unknown	File accounts; provide CAC documents and group chart
Key person; FX and affordability; third parties	Brand depends on Capt. Zino; tuition in USD/EUR/ZAR; unnamed partners deliver core services	Build the team bench; tuition financing; written partner contracts

Funding: *to be confirmed by the founders.*

No raise, round size, valuation or use of funds is published, and none is assumed here. Funding raised to date is unknown — not zero.

The raise

- Amount sought, instrument, valuation expectations
- Use of funds: simulator qualification, Academy growth, Jet operations, compliance
- Runway, burn and revenue by service line for three years

The documents it rests on

- CAC certificates, MEMART, shareholder register; relation to the UK company
- Simulator: provider, ownership or lease, financing, qualification
- Signed partner agreements and commission terms

An operating Academy to back now; *a Jet brand to prove next.*

The opportunity

Large, sourced pilot demand in Africa ● Verified public

A pilot-career funnel with years of public activity and press ● Verified public ○ Self-reported

A founder-led brand and a claimed 8,000-person network ○ Self-reported

Optionality in private aviation, once operators and transactions are shown ◇ Assumption

Contact (published): enquiries@zinoaviation.com ○ Self-reported

Next steps — data-room request

Entity documents and group structure; 2018 founding evidence

Simulator file and any FSTD qualification

Enrolments, completions, consented placements; basis of “8,000+”

Jet: completed deals, AOC holders used, escrow, insurance, JetVault status

Founder licence documents; trademarks; NDPA compliance

Key facts, as of October 2026 — by section

Section	Fact (as of October 2026)
Founders	Founder experience: Capt. Zino Mario previously founded and led Delta Dash Aviation Ltd (2013) and Pilot Pairing Ltd (2017) in the UK, after years of experience as a licensed pilot ● Verified public
Problem	Customer problem: customers, aspiring pilots and their families in Nigeria, face an expensive, slow and fragmented route to a licence, usually abroad ○ Self-reported
Market	Growing demand: Africa needs 23,000 new pilots over 2025–2044, structural demand documented by Boeing ● Verified public
Market	Serviceable market: about US$13.4M a year, an estimate from stated assumptions ◇ Assumption
Market	Expansion plan: expand from pilot training into the private aviation market through Zino Aviation Jet ○ Self-reported
Solution	Market window: the Boeing 737NG simulator in Lagos is deployed and ready to serve students ○ Self-reported
Solution	Delivery: the Academy is serving students across multiple countries through partner schools in South Africa and Greece ○ Self-reported
Go-to-market	Partners: active partnership with SafeFly Express (Guardian Nigeria reported the alliance) and TAE Aviation Academy ○ Self-reported
Go-to-market	Sales channel: direct sales of simulator sessions and paid advisory calls ○ Self-reported
Competition	Licensed partners: training runs through partner schools licensed by SACAA (SafeFly Express) and EASA (TAE Aviation Academy) ○ Self-reported
Competition	Difference: unlike flight-school-only alternatives, Zino Aviation combines the Lagos simulator, partner schools abroad and one-to-one advisory support ○ Self-reported
Team	Critical team functions: hiring is open, with job adverts published under the Zino Group name ○ Self-reported
